

# 19<sup>th</sup> International Symposium on Advances in Extraction Technologies

Santiago de Compostela, Spain, 27-30 June 2017

<http://extech2017.es>

We are pleased to announce the 19<sup>th</sup> edition of ExTech, the International Symposium on Advances in Extraction Technologies, to be held at the **University of Santiago de Compostela** in June 2017. The **ExTech symposium** series is the flagship event for sample preparation, analytical extraction processes, and sample clean-up techniques. The series, started in 1999 by **Prof. Janusz Pawliszyn** (Canada), has been held annually around the world. **ExTech** has become a unique and vital platform for the exchange of information and ideas in the growing field of sample preparation. Contributions to ExTech2017 will be published in a special issue **Elsevier journals**.

## MAIN TOPICS

Theoretical and fundamental aspects of extraction technologies • New extraction phases • New technologies and techniques • Sample preparation for direct introduction to MS • Direct Analysis in Real Time (DART) • Emerging contaminants and current issues • Environmental sampling. New devices and developments for passive sampling • Food control and analysis. Industrial applications • Foodomics • Natural products, flavor and fragrance analysis • Forensic analysis. Biological sample preparation • Sample preparation and analysis of pharmaceutical and personal care products • Biomedical applications. Diagnostic tools • Bioanalytical applications • Microfluidics/Lab-on-a-chip: new devices and techniques • New strategies and innovation for Genomics, Proteomics and Metabolomics • New developments in sensors and assays-Remote sensing • Automated analytical systems • Commercial developments and markets
